## ALBANY HERO'S LEGEND INSPIRES NAVY ATTACK

This is the life I chose. This is the life I love. The United States Marine Corps. . .

Shortly before he was killed in action, Marine Sgt. George Logan, 22, former Albany High School football tackle, wrote those words to his parents, Mr. and Mrs. O. Chapman of 1284 Weber St., Albany, and formerly of Albany.

Today, those words appeared in the life of a young man, who, after a recent desperate flight at Chosin, was being rescued by the words of Sgt. Chapman lent him a heavy Naval Air Corps carrier to cover the successful withdrawal.

Graphic details of the assault, while the attack was in progress, were received by Mr. and Mrs. Chapman from Lt. Bert W. Adams, a close friend of young Logan aboard the carrier.

Every bomb, the carrier flier said, fell down on the enemy before Chapman's legend, together with the youth's name "to commemorate a great Marine," Simons revealed.

Long before you get this letter (from December 9) you will have about this day. . . The ship board has selected men who are acquainted with Sgt. Chapman's family to handle the initial attacks for our heaviest attack day," he wrote.

Officer said the first wave of the attack cleared the deck of the ship at 4 a.m., in spite of bitter winds and swirling snow, aided.

Continuously this day and far the night we will drop tons of bombs, rockets and fragmentation bombs on the Red Chinese inspired (by young Chapman's words) to pin the enemy long enough to permit the Marines a chance to break through the encirclement to safety," Simons closed his letter.

Must apologize for not writing an extensive letter, but I, too, have a job to do in this and must do it.

His reports told later of the day of the attack, describing the fire no man or machine could hope to penetrate." Thus the day of young Chapman continues in the Marine Corps.

Chapman was fatally wounded in action August 8 after leaving the United States with his Marine unit on July 14. He was graduated from Cornell School and played the football team at Albany High School during his junior and senior years.

And Mrs. Chapman moved to Alameda last September after living in Albany for 10 years.

## Rumors About

### Cpl. Kissner 'Only Rumors'

Various "rumors" concerning the ill-fates that had befallen Cpl. Charles G. Kissner in the Korean War today were corrected by his parents, Mr. and Mrs. A. W. Kissner, of 922 Santa Fe Ave., who received "favorable news" from him in a letter dated December 13.

"Although 'Skip' (as he was known by his many friends) has been through dangerous, trying days in Korea," Mrs. Kissner said, "he wrote that he was looking forward to being returned to the relief center in Japan for a rest period."

The 19-year-old paratrooper said in his letter that he had been flying with the airborne cargo-lift, dropping medical supplies and warm clothing to divisions cut-off by the Chinese Reds in the Wonsu area.

Cpl. Kissner entered the service in February, 1948, after graduating from Albany High School. He received his basic training at Ft. Benning, Ga., and was sent to Korea from Alaska.

## Albany Legion's Drive For Toys Ends Saturday

Albany Post No. 292, American Legion today was in the midst of its second annual Tide of Toys for the benefit of children in war-torn countries. The drive concludes here Saturday noon.

Commander Arthur Carlson and his committee this week visited in Albany schools collecting toys and explained the purpose of the drive. Children were asked to include a personal message with the toy they give with their name and the school they attend.

Local residents were urged to contribute either new or usable toys which may be left at the Albany Police and Fire Departments until Friday evening. Toys will be packed by a Post packing party Saturday for shipment to the East where they will be transported to Europe.

Toys will be accepted at the Veterans Memorial Building until 12 noon Saturday, Carlson said.

Dr. Paul C. Bryan, superintendent of schools, is serving as honorary chairman of the drive.

The national goal for this year has been set at 10,000,000 toys, and local contributions are needed to fill Albany's quota.

## Civil Defense Apathy

If California citizens are fearful of atomic bomb attacks in this area they are doing very little about it. Top civil defense leaders in Sacramento last week scorchingly denounced the state citizenry for its apathetic response to the defense recruitment drive.

Albany has accomplished more than most cities in lining up civil defense, but apparently most of the California residents are just blindly hoping we will never have an atomic attack . . . or are too appalled by the anticipated results of such an attack to sign up for the defense program.

Either attitude is foolish. True, we may be fortunate enough never to have an atomic bomb—or any type of bomb—fall on us here on the West Coast. But merely relying on wishful thinking or refusing to face up to the possible dangers will not help if a crisis comes.

As state director of civil defense Major General W. M. Robertson put it, "We cannot come out of the rubble of an atomic attack and survive unless we have a proper civil defense organization."

It should be remembered that if war should come there probably would be an attack against us first and a declaration of war after. Hence we cannot count on even a brief warning before the bombs fall. There is also the fact that we are fortunate enough to have an advance notice we still would be unable to build a civil defense structure overnight with the many thousands of trained personnel needed.

This is a very late hour for people to be sleeping or shirking their responsibilities—and time is running out. Have you offered to help out?

## Edmund Kurtz, World Famed Cellist, Plays For Community Concert Ass'n.

Edmund Kurtz, world famed cellist, was presented in concert here Wednesday evening at Albany High School Auditorium as the second attraction on the Albany-El Cerrito Community Concert winter program.

Kurtz fully displayed his artistry as a genius of the cello, brilliantly playing with creative dignity compositions of Frescobaldi, Boccherini, Weber, Ravel and others.

One of the outstanding works of the evening was his interpretation of the four movements from Rachmaninoff's Sonata in G minor, Opus 19.

Kurtz's reputation as a great cellist is of long standing, having started with his debut in Rome in 1920. He is one of three brothers, all now famous musicians, who fled from St. Petersburg at the time of the Russian revolution, and received musical training in Germany and France.

He made his American debut in 1943 playing as soloist for Arturo Toscanini and the NBC Symphony.

Kurtz is particularly famous for having introduced many new works to the American public, including Milhaud Concerto under the baton of Arturo Rodzinski with the New York Philharmonic Symphony, and Khachaturian's Concerto, with the Boston Symphony under direction of Sarge Koussevitzky.

Accompanist at the Albany recital was the Swiss pianist, Leo Nadelmann, who was heard in works of Debussy and Rachmaninoff.

Preliminary arrangements for the Concert Association's spring membership drive were made recently in a meeting held at the home of Mrs. E. M. Stadium.

Mrs. Harold Stone, president, has appointed Mrs. M. J. Schlatter chairman of the drive to be conducted here February 15 to 24. The kick-off dinner will be held the evening of February 15 with Mrs. Arthur L. Weinberg as chairman and Mrs. M. C. Giles in charge of the program.

Admission to the concerts is by membership card only, which may be purchased during the annual drive.

Many outstanding artists have appeared on the local program during the past years, including Dorothy Maynor, soprano; Lorenzo Alvarez, Metropolitan baritone; Byron Janis, young pianist; John Carter, tenor, and Mata and Hari, famous dance team.

Concluding the current concert season on Saturday, February 24, will be the famed dance team of Rey and Gomez.

## Y Dinner Set Jan. 23

## Ham Operators Next on Albany Defense List

Commander Gerald Browne of Albany Disaster Council today called for the registration of local ham radio operators to aid in organizing a special communication unit in the defense program.

Operators are requested to sign up at the Fire Department within the next few days.

Browne said the air raid siren test conducted here last Friday morning was an improvement over the test two weeks ago, although additional warning devices are needed in certain areas of the city.

He said that government officials have requested that all cities hold off the buying of any new warning devices until a uniform signal is established. Browne said that the sirens used in most cities are often confused with police and fire sirens.

Because of a capacity enrollment, two new first aid classes are scheduled to start on January 23 and 30. Classes will be held at Cornell School and Albany High School under direction of Mason Layton.

Additional information on school registration is available from the school secretary at L.A. 5-1757 days or L.A. 5-7131 evenings.

Some 115 residents are now enrolled in classes at Marin School and Albany High School.

During the luncheon, Dr. Shepherd, a former missionary, explained the history of the home.

He founded Chung Mei for orphan boys in 1923, after returning from China. The home was first located on Ashby Ave. in Berkeley, providing quarters for 20 boys. A new and larger home was constructed in 1935 at the present El Cerrito location. Some 76 youngsters are living in the home at the present time, he said.

Dorothy Simmons was chairman of the day.

The class will be held on Wednesday from 7:30 to 9:30 p.m. at Albany High School under direction of Stanley Kendall.

Dennis said Kendall will offer expert instruction on filling out tax returns. He said this would be an easy way to check on exemptions, income classification, need for receipts and other knotty problems people are faced with each year.

## Council Revokes Health Appointment; Stallone May Try County Plan

Albany Health Officer Dr. Victor Stallone Jr. today had the go signal from the City Council to obtain the services of a competent restaurant and bar sanitary inspector of his own choosing.

Permission was granted in a heated session Monday night, during which the Council rescinded its week-old appointment of Building Inspector Jack O'Leary as sanitation inspector.

## School Board OK's MacGregor Boundary Change

The Albany Board of Education Tuesday night authorized minor boundary changes for the MacGregor School, which will affect only those students enrolling in school for the first time.

Children living in the 800 block of Key Route Blvd., Pomona and Ramona Aves. will attend the Marin School.

The field house, to include locker space and dressing rooms, will cover approximately 3500 square feet. The bleachers will seat some 1,000 spectators.

## Wed. Brunch Set For Northbrae Mothers

The Mother's Council of Northbrae Community Church will have its regular monthly meeting 10 a.m. Wednesday, January 17, in the south room of the church.

Mrs. Eunice Kent, member of the Council, will give a book review of Carl Van Dorn's newest book, "Jane Meem," a biography of Benjamin Franklin's sister.

Brunch will be served at 10 a.m., followed by the program and business meeting.

Action on the health question came Monday night after a letter was read from Dr. Stallone.

Dr. Stallone said that it was "quite a surprise to him to hear that O'Leary had been appointed restaurant inspector" and that he could not accept O'Leary, because he is not a registered sanitary officer as required by state law. He admitted that he had also been in error in previously recommending the poundmaster for the job.

"There is a good possibility of getting a registered sanitary officer from the Alameda County Health Department for a nominal sum," he said. "This would give us the opportunity to acquire a sanitary inspector at a low cost to the city."

A request for \$1,265 for defense funds was made by Commander Gerald Browne of the Albany Disaster Council. The matter was referred to the finance committee.

The Council accepted the resignation of Police Officer Cecil E. Pirtle, who has accepted a similar post with the Salinas department. He has served on the local department for the past two years.

In other business, the Council authorized City Attorney Edward R. Plotner to start condemnation proceedings against C. Dudley De Velbiss, who owns land north of Albany. Hill through which the north outfall sanitary sewer line is to be constructed.

On a motion of Councilman Raymond Cleary, the Council authorized the printing of 1,000 copies of the new business license ordinance, which went into effect January 1.

## Eyes Mirror Your Personality

Poets have called eyes "the windows of the soul" . . . and indeed they are—for they mirror your personality . . . express every emotion . . . speak even when your lips are sealed. Therefore, eye make-up, deftly applied, takes on added importance. To help you glamorize your most expressive feature, we pass along some valuable eye-beauty tips from Winx, creators of mascara, eyebrow pencil and eye shadow.

Movie star Gail Russell realizes the leading beauty role played by the eyes. She is shown here applying mascara with gentle upward stroke that helps curl the upper lashes.

Refreshments will follow the business meeting under direction of second grade mothers, including Mrs. Les Spayak, Mrs. Len Callan and Mrs. George High Jr.

Mascara, either in cake or cream form, is easily applied with a brush. You gently stroke the upper lashes in an upward direction from the root to the tip to curl them. Use a downward stroke for the lower lashes. It's a good idea to remove all mascara every night, so your lashes never become "caked" from too many applications of make-up. This is easy to do by stroking the lashes downward with absorbent cotton dipped in warm, soapy water.

**DENNIS DAY**  
Of NBC Saturday "The Dennis Day Show" resolves for 1951: "to keep Mr. Benny's lawn trimmed neatly and weed free (as per the fine print in my contract). to get Herr Klumbmeyer out of the house by Christmas—Christmas 1951, that is. to make more money so that my mother can give up driving a cement truck. Seriously, to bring my listeners the kind of music, jokes and stories they want to hear."

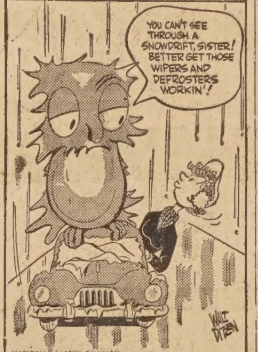

**WALTER KIERNAN**, ABC commentator-humorist is "I am a duck" shooting. Kiernan says: "Why should Congressmen and Senators who've been beaten, be allowed to go around introducing bills, voting on old ones and serving on committees in these parlous times right up to the first of the year?" He thinks 2 weeks notice enough... certainly food for thought.

**JUDY CANOVA**  
Of NBC Saturday "Judy Canova Show" resolves for 1951:

— "to be more ladylike about men. It doesn't turn out well when you set bear traps all over the lawn for them... hurts their feet. to help Joe Krunchmiller get married—to me. and to keep my radio audience happy by bringing them the kind of programs they like."

# Grow Your Own CHAPEAU

Economy minded women could take a tip from Mother Nature when it comes to hats. According to Alyn Wayne, stylist for the Florists' Telegraph Delivery Association, the "makings" for an exotic chapeau are to be found in your own flower garden or favorite florist shop.

With a flick of the wrist "floramilliner" Wayne combines flowers of the season with a few strands of wire and bits of ribbon to create hats that hold their own with the latest from Fifth Avenue. You, he says, may do the same with a bit of practice under the skilled tutelage of your florist.

Working with needle and thread Alyn Wayne blends daisy mums and African daisies to make a decorative headpiece for a sunny winter afternoon. Bright hues of yellow and orange are found in the waxlike anthurium. Molded into a sweeping line around the head and neck, these unusual orchids will provide a conversation piece for any lagging cocktail party.

With an off-the-shoulder evening dress a bonnet of blue thistle should bring a whistle from any group of one or more maies. Famous model, Roxanne, (above) shows it off to best advantage. "Sparks" of color for winter gaiety are supplied by painted leaves. Other flowers which lend themselves to floral millinery are carnations, popular cattleya orchids, cymbidium orchids and the dynamic "bird of paradise."

# Security Savings Show 29 Per Cent Gain During '50

A gain of 29 per cent in resources for the year ending December 31, 1950, was experienced by the Security Savings and Loan Association, it was announced by W. J. Bowman, president of the association.

Assets of the association amounted to more than \$5,800,000 as of December 31, a gain of \$1,315,000 for the year. This is a result of the business activity of more than 4,300 persons in Richmond and surrounding area.

Total savings receipts for the December, 1949, to December, 1950 period were approximately \$3,000,000, an increase over the comparable 1948-49 period. These savings, according to Bowman, were invested principally in home loans to help persons in Richmond and vicinity to build or buy homes.

and to finance repairs, alterations and improvements. Many of these homes financed were for veterans.

Home loans held at the year end by the association were approximately \$4,800,000, with funds advanced for the financing of homes during the year amounting to \$2,300,000.

The association declared a dividend at the annual rate of 3 per cent to the 3,000 savers with accounts in the association, Bowman said.

"During the coming year," Bowman stated, "the association expects to expand the volume of both saving received and the amount of money advanced for home lending."

# "Super Inch" has gone to work

...and it's good news for you and your neighbors!

Of course, completion of "Super Inch" Pipeline is big news to everybody—twice as many people in California use twice as much gas today as was necessary ten years ago—what gas is left in the State no longer can meet the ever increasing requirements of growing California.

To assure our customers a continuing ample supply, we went nearly halfway across the continent to Texas to secure a supply of natural gas that just started flowing through "Super Inch." Adequate gas and electricity enable communities and industries to grow, mean new jobs, larger payrolls. And P.G. and E. gas rates, as well as electric rates, are among the lowest in the nation.

Now meet a few of the folks who helped build and finance "Super Inch" and some folks who use the gas it brings from Texas...

Here's Dr. Woodrow Coale, Stockton dentist and former mayor of the city. Dr. Coale, along with nearly 170,000 others, has invested part of his savings in P.G. and E. stock. Through this investment such huge projects as "Super Inch" may be financed so that plentiful, low-cost fuel is assured in growing Northern and Central California.

The Neeld Family, newly arrived from Maryland, in the patio of their home in San Jose. It is to supply the Neelds and over 500,000 other new families living in P.G. and E. territory that we built "Super Inch." The Neelds were happy to find that they pay only 1/4 as much as the same amount of gas cost them in Maryland.

This is Cliff Knez. In inspecting "Super Inch," Cliff walked 1500 miles—three times its California length. Plans for this largest diameter pipeline ever built for transmission of natural gas began six years ago, and the new line has cost 63 million dollars to build! You have to plan ahead, and raise large sums of money when you have more than a million customers to supply with gas 365 days a year.

## BEAUTY—News & Views

By TONI WOODWARD—ANS Staff Writer

SO YOU'RE DREAMING of your glamour role at the big party... anticipating that shiver of excitement when you suddenly look new. A breath-taking dress can do it... or a dramatic new hair-do... but don't forget that the most important part of the picture

is you, your-  
self—with  
your complexion  
looking  
its radiant  
loveliest.  
To ready yourself  
for the dance,  
why not take  
a tip from the  
youngest member  
of your  
family—the  
one whose sat-  
iny skin is so  
envied. "Baby"  
your own skin  
as you do his.

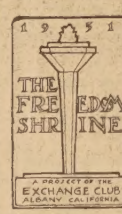

Another beauty aid,  
which we've "borrowed" from  
baby, are sterile, absorbent cotton  
balls. These convenient,  
ready-made cotton balls are in-  
valuable for removing nail  
polish, applying powder, skin  
tonics, lotions, or removing  
make-up. Moistened with boric  
acid solution, they're soothing  
to wind-strained eyes.

IF YOUR HAIR is dulled by too  
many permanents, split at the  
ends, or dried by overheated  
rooms, try this hair-beauty  
treatment to bring back its nat-  
ural softness and romantic  
"lovelights".  
Before each  
shampoo, dip a  
sterile cotton  
ball in warmed  
baby oil and  
rub the oil into  
the scalp. Then  
wring dry a  
steamy, hot  
towel and wrap  
it around your head. Leave it  
on until the steam dies down...  
repeat several times to ease the  
baby oil into the scalp. Follow  
with a sudsy shampoo, and get  
ready to take your bows as new  
highlights gleam from your soft,  
lustrous tresses.

MAKE-UP HINT—since dirt  
and grime have always been  
enemies of a clear, radiant skin,  
our advice is—throw away that  
soiled powder puff and keep a  
handy box of sterile cotton balls

on your dress-  
ing table. Use  
a clean cotton  
ball for each  
powdering ses-  
sion. Then there's  
no chance for old  
powder-puff  
soil to clog  
your pores.  
After powdering, moisten a cot-  
ton ball with icy witch hazel,  
press it on your freshly pow-  
dered face, and "set" your make-  
up. Result: an invitation to ro-  
mance.

A mighty good friend of the family budget, your telephone offers more service than ever—at bargain rates

## WHERE EVERY DAY IS BARGAIN DAY

Your telephone gives you more for your money than in 1940

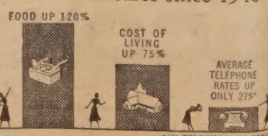

1. When you buy almost any of the things you use  
every day, it seems that the prices you pay have just  
about doubled in the last ten years. But this pattern of  
inflation doesn't hold true with your telephone. For  
in spite of higher costs of furnishing telephone service—  
wage levels that have doubled, materials that  
have shot up sharply—telephone rates have increased  
far less than the cost of living.

3. In these days, when our nation needs a strong  
and efficient telephone service to help speed the job  
of defense, that service is available—and at bargain  
prices. And you can be certain that all of us at Pacific  
Telephone will keep right on working to build your  
telephone's value still more—to make it a still better  
servant for you. And for our nation.

**Mare Island Workers Contribute to Local Community Chest**

During the recent Community Chest campaign, Albany citizens working at the Mare Island naval base asked that their contributions be turned over to their "home town" Community Chest.

This week a check was received by the Albany-Berkeley Chest, covering contributions, and accompanied by a letter from Rear Admiral Frank E. Beatty, Commander of Mare Island.

The Admiral stated that employees of Mare Island were encouraged to make donations at work to the Community Chest, indicating at the same time the community to which they wished their contributions forwarded.

As among men, so among nations — nothing will do more to maintain the peace of the world than the rigorous application of the principles of our ancient religion. — President Harry S. Truman.

Follow the directions of God . . . and though it be through deserts, He will direct you into the paths of peace. — Mary Baker Eddy.

Nothing can bring you peace but yourself; nothing can bring you peace but triumph of principles. — Emerson.
